

COS10011 Creating Web Applications, Semester 1, 2020

About the Final Alternative Assessment (40%)

Please refer to the unit outline about the assessment methods of this unit, the only change is to replace the final exam with a final alternative assessment.

In the final alternative assessment, you will be asked to develop a web application independently for a project, such as online ordering, conference registration, job application, survey submission, and etc.)

1. Preparation

The background of this web application and requirements will be available from 17 June (Wednesday) 8 am.

2. Two Hours Online Assessment (22 June Monday afternoon from 2:30 to 5:00 pm)

You will be required to attend a two hours online assessment on 22 June (Monday) from 2:30 pm to 5:00 pm (2 hours assessment time plus 15 minutes reading time and 15 minutes submission time). At the start of this session you will be given some additional requirements to implement and integrate with your project. You need to submit your final product before 5 pm. The canvas submission link will be closed at 5pm.

3. Submission

You need to submit your web application to both Canvas (compress all your files into a zip file) and Mercury by the due time. Your Mercury file date cannot be later than your canvas file date.
